To Whom It May Concern,

I am writing in behalf of Dr. Vinod Kurup.

I have had the pleasure of working with Dr. Kurup for the past three years, one afternoon a week, as his clinical preceptor in the ambulatory center at New England Medical Center. His overall work has been outstanding. He is an able clinician and approaches complex patient problems in a comprehensive manner. He has consistently demonstrated a caring and professional attitude.

I highly recommend him for work in the outpatient setting.

Sincerely,

L. Hallarman, M.D.
